

Multi-Stakeholder Initiatives

Collaboration	Social Responsibility Focused	Traceability Focused
<p>Consumer Goods Forum (CFG)</p> <p>Consumer Goods Forum (CGF) members work collectively to implement Priority Industry Principles in areas and geographies of key concern, starting with the seafood industry in Southeast Asia. The Seafood Outreach group is designed to connect and bridge with existing efforts on seafood to mainstream the principles. CGF holds advocacy and supplier events on the ground in key geographies, Regional Roundtables on Responsible Recruitment, and is collaborating with Global Sustainable Seafood Initiative (GSSI) to provide a benchmark and recognition tool for social compliance schemes in the seafood sector.</p>	<p>✓</p> <p>Responsible Recruitment</p>	
<p>Ethical Trading Initiative (ETI)</p> <p>Ethical Trading Initiative (ETI) is a leading alliance of companies, trade unions and NGOs that promotes respect for workers' rights around the globe. Its vision is a world where all workers are free from exploitation and discrimination, and enjoy conditions of freedom, security and equity. ETI brings corporate, trade union and voluntary sector members together in a unique alliance that enables it to collectively tackle many thorny issues that cannot be addressed by individual companies working alone.</p>	<p>✓</p> <p>Worker Engagement</p> <p>Responsible Recruitment</p>	
<p>Global Dialogue on Seafood Traceability (GDST)</p> <p>Global Dialogue on Seafood Traceability (GDST) is an international, business-to-business platform established to advance a unified framework for interoperable seafood traceability practices. With three technical working groups, the pre-competitive Dialogue aims to produce an aligned global</p>		<p>✓</p>

<p>framework for seafood traceability based on four pillars: internationally agreed key data elements (KDEs) to be routinely associated with seafood. The GDST is working on the topic of refining and implementing industry-wide interoperability best practices, and producing an industry aligned set of KDEs necessary for traceability.</p>		
<p>International Labour Organization (ILO) Sea Fisheries Project</p> <p>International Labour Organization (ILO) Sea Fisheries Project aims to reduce human trafficking and labour exploitation in fisheries by strengthening coordination and increasing the efficiency and effectiveness of existing national and regional level anti-trafficking efforts in South East Asia. The SEA Fisheries Project works on three core areas: establish a multi-stakeholder regional coordination body; coordinate strategies and action plans; commission and conduct independent research.</p>	<p>✓ Decent Work at Sea</p>	
<p>The Leadership Group for Responsible Recruitment</p> <p>The Leadership Group for Responsible Recruitment is a collaboration between leading companies and expert organizations to drive positive change in the way that migrant workers are recruited. All members of the Leadership Group are publicly committed to the Employer Pays Principle and its implementation throughout their supply chains.</p>	<p>✓ Responsible Recruitment</p>	
<p>Responsible Labor Initiative (RLI)</p> <p>Responsible Labor Initiative (RLI) is a multi-industry, multi-stakeholder initiative focused on ensuring that the rights of workers vulnerable to forced labor in global supply chains are consistently respected and promoted. The Initiative is open to any company that supports the mission and vision of the RLI and whose primary objective in joining the</p>	<p>✓ Responsible Recruitment</p>	

<p>initiative is the implementation of forced labor due diligence in their supply chain.</p>		
<p>Seafish Common Ethics Language Group</p> <p>Seafish Common Ethics Language Group is a multi-stakeholder group established by Seafish whose aims are to establish a common understanding of ethical issues impacting the seafood supply chain, to communicate the work currently going on to address them, and to agree on a clear agenda for future action.</p>	✓	
<p>Seafood Alliance for Legality and Traceability (SALT)</p> <p>Seafood Alliance for Legality and Traceability (SALT) is a global alliance to promote legal and sustainable fisheries through improved transparency in seafood supply chains. SALT brings together the seafood industry, governments, and NGOs to accelerate learning and support collaboration on innovative solutions for legal and sustainable seafood, with a particular focus on traceability. One of SALT’s objectives is to identify ways in which the implementation of electronic catch documentation and traceability can support human and labor rights for all seafood workers, food security, livelihoods, and well-being. SALT is doing this by hosting collaboration and learning events (in-person and virtual) that convene diverse stakeholders to co-create solutions, and an online resource and learning platform where SALT will produce and feature resources that address these linkages.</p>	✓	✓
<p>Seafood Task Force (Task Force)</p> <p>Seafood Task Force (Task Force) is a group of seafood processors, feed producers, buyers, retailers, government representatives and NGOs who have come together to address issues surrounding labor and illegal fishing in seafood supply chains currently focusing on the seas around Thailand.</p>	✓	✓
